

Professional Summary

Software Developer with 1.6 years of hands-on experience, primarily working with React.js, JavaScript, Django, PostgreSQL, and modern CSS frameworks. I enjoy building clean, responsive, and user-friendly web applications that provide a smooth and engaging user experience. Along with frontend development, I have working knowledge of backend technologies like Python and Django, and experience with PostgreSQL for data management. I also have some exposure to platforms like WordPress and Magento, including handling dashboards. I enjoy solving real-world problems, learning new technologies, and continuously improving my skills to build scalable and efficient applications.

Employment History

Software Engineer

Bluethink Inc, Noida

February 2025 - Present

- Developed and maintained full-stack web applications using React.js for frontend and Python (Django) for backend services.
- Built reusable UI components to improve development efficiency and consistency.
- Collaborated with backend teams to integrate APIs and enhance overall user experience.
- Optimized application performance and ensured cross-browser compatibility.
- Worked on modern UI frameworks like Tailwind CSS and Bootstrap for clean and scalable designs.

Software Trainee (Internship)

Bluethink Inc, Noida

October 2024 - February 2025

- Assisted in building responsive web interfaces using HTML, CSS, JavaScript, and React.js.
- Collaborated with senior developers to debug issues and enhance existing features.
- Gained practical exposure to full-stack development with Python (Django) and REST API integration.
- Developed understanding of database operations using PostgreSQL.
- Applied responsive design techniques to improve user experience across devices.

Skills

Programming

Python, JavaScript, Typescript

Web Development

HTML, CSS, React.js, Bootstrap, REST API Integration, Tailwind CSS, Responsive Design, Redux, Nextjs, Nodejs,

Database Management

PostgreSQL, MySql, Mongo

Version Control

Git, GitHub

Frameworks

Django

Tools & Design

Figma, Zeplin,sketch

CMS & Platforms

Methodologies

Education

Bachelor of Technology (B.Tech) in Computer Science

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal

Graduated: 2024

Personal Creation

Food Market – E-commerce Website

- Developed a full-stack e-commerce web application for browsing and purchasing food items online.
- Built a dynamic and responsive frontend using React.js and Tailwind CSS for a smooth user experience.
- Designed and developed backend APIs using Django to handle business logic and user interactions.
- Integrated PostgreSQL for efficient data storage and management of products, users, and orders.
- Implemented core features like product listing, add-to-cart functionality, and interactive UI components.
- Ensured responsive design and optimized performance across devices.

Tech Stack: React.js, JavaScript, Django, PostgreSQL, Tailwind CSS
